# WRESTLING **HUME ARENA TONIGHT**

THE RED SHADOW YE. EARL MCCREADY

IT IS these "wheels" for war workers, soldiers of industry, that you can help make go round.

If you have an unused "wheel" get it out and offer it for sale, sugh a C.C.M. dealer, so that some war worker can buy it and a solve his transportation problem.

C.C.M. make most of the "wheels" used in Canada but just now we are very bury making munitions, and consequently very few wheels"—that is why "wheels" are accure. It is why we ask jost to selp "make the wheels go "round" by offering for sale any unused wheel" you may have.

Soon after victory we will again be making plenty of C.C.M. wheels' replendent with chrone plating, color enamel, gold and morg striping. Till then, you can belp us "make the wheels go loud" by releasing any inactive hicyde in your household and enting it into active service by selling is to your C.C.M. dealer who fill see that a war worker or other qualified person gets it.

In order that CCM, hicycles may be kept in good repair, CCM, are maintaining the best possible service or genuine CCM, parts and astery accessories by apportioning their available models for the 2,500 CCM, dealers across Canada. Every dealer gets his full quota in proportion to the parts available.

Bicycle Purchase Application forms may be filled in at any bicycle

Cost? — Estimated annual loss caused by warble flies in this country is \$12,000,000.

Sometimes called the heel fly, the Sometimes called the heel fly, the warble fly lays its eggs amongst the leg hairs of cattle. These hatch into grubs and work their way through the animal's body to its back where they punch through the hide. The waybe then from the state of the state o

through the fide. Inc grubs then drop to the ground and begin their destructive cycle all over again.

To meet the urgent need for a remedy that will stamp out this saboteur, chemistry has developed a powder that attacks the attacker.

It may one day bring the menace of the warble fly under control.

Produced from tropical plants, it contains a powerful substance called Rotenone which, while highly poisonous to the grub, is harmless to man and domestic animals. Washed on infested cattle it kills the grub and ends the vicious cycle at that

QUAKER CALF MEAL!

BISHOP &

THOUSANDS of alert Canadian Dairymen have proved that Quaker Calf Meal costs leas to feed. Prove it to your own astisfaction this season and with the savings you make buy some needed equipment for your farm. Quaker Calf Meal is a balanced ration, scientifically compounded to take the place of whole milk after the first month, and gives results that compare most favourably with whole milk feeding. Feeding Quaker Calf Meal permits you to sell a maximum of milk from the herd, while raising the calves into strong lusty, helfers.

# The Fighting Women of Winthrop Street!

This is Morton Duvidson; 28 years old. Funny thing, but Martha want very much stirred up by this war. It is true that mort of the boys in town had gone. She bought War Swrings Certificates and took ten stinoning cheer-fully, but she want's fighting mad yet. She was still thinking more about herself than she was about her country.

Aunt Susen lives in a big, old bouse on Winthrop Street. By the second day of the visit, the decided it would be good for peacetaine Martha to meet the women—the fighting women, of Winthrop Street. "Come in your work dother," they were told—and they did, and here are a few of them.

Berry, who makes parachute cloth in a textile Betty, who makes parachuse could in a textue plant, starts work at seven a.m. Last year she seldom got up before nine, rarely missed an after-noon party: Mary Lou, who joined the CWAC when her husband joined the Air Force, and who when her numbered to the above the total total six shappy to have released an "A" category soldier for more active duties. Kay, who traded nursing for matrimony five years ago. Now she parks her ror maximony are years ago. Now she parks her three-year-old at the day nursery and is back at the bospital again as a Registered Nurse. And Aunt Suasa herself, who is busy with meals, housework, seving—and sill gives a good may hours to Red Cross, V.A.D. and her Victory

The men of Winthrop Street are either in the Services or busy at essential jobs. It's the somes we're talking about. Every one of them who can, we re taking a four. Every one or inem who can, is doing a man's work at a full or part-time job.
You can be sure they get a deep satisfaction to be doing their part in this war.

Here's Merthe egain: Back home, but she's caught the fighting spirit of those Women of Winthrop Street. She went straight to the nearest Employment and Selective Service Office the day she re-

turned. Today she has a FULL-TIME JOB at a drill press in

New priority procedure:

Program Classification System EFFECTIVE JUNE 7

A NEW priority procedure, the Program Classifica-tion System, has been established by Priorities Order 4, effective on June 7, 1943. Under this simple, new procedure, industrial purchase orders placed with Caradian tims will be classified within one or more of 24 code numbers.

After Jum 7 every purchaser of goods or commodities valued at \$35 or more, (other than a retailer, or person who buys, from a retailer, or such others are designated in the regulations), must provide his age; and with the oppropriate code runniformation to enable the regulations, or with automation to enable the supplier himself to classify the purchase order.

Industrial and mill suppliers, warehouses and other businesses performing similar functions for industry, shall NOT be deemed retailers for the purposes of the new regulations.

Copies of the new Order, P.O. 4, together with com-plete details of its operation, are obtainable from Reg-ional Priorities Offices.

51,321 individual shareholders own Canada's Chartered Banks. The average holding is 28 shares. Most of these shareholders are Canadians.

> The wide distribution of bank ownership is indicated by the fact that 36,574 individuals, living in all parts of Canada, hold shares in the Chartered Banks of Canada. Of the remaining shareholders, 8,987 live elsewhere in the British Empire.

# Some further facts about Canada's Banks:

There are 4,369,740 savings deposit accounts in the Chartered Banks of Canada, averaging \$391 each. Safeguarding the funds of depositors is a primary function of commercial banking. Banks keep themselves in such a position that anybody going to the bank to withdraw his savings can get his money. Banks, like any other business, exist because they provide service which a community needs and is willing to pay for at a rate which will yield a reasonable return.

THE CHARTERED BANKS OF CANADA

- 1. If you find the line in use, hang up your receiver promptly.
- 2. Avoid unduly long talks. Short conversations will keep the line open and make the service of maximum use to everyone.
- 3. When your telephone rings, answer promptly.
- 4. Do not allow children to play with the telephone.

# FAT IS AMMUNITION!

Fat and bone conservation begins at home and ends in the firing line

- DO YOU KNOW -

One pound of fat supplies | Two pounds of fat will fire a burst of 20 cannon shells from a Bren gun.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

OUR FIGHTERS DEPEND ON YOU

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fast."

The obove paragraph is a direct quotation from Order A-642 of The Wartime Prices and Trade Board.

"Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered.

"Bones" means raw or cooked bones of cattle, sheep and hogs.

EVERY OUNCE COUNTS!

SAVE AND STRAIN EVERY DROP TO SPEED VICTORY, SELL IT TO YOUR BUTCHER OR GIVE IT TO YOUR SALVAGE COMMITTEE.

NOTICE TO BUTCHERS, HOTELS, ETC. You have been mailed a copy of Order A-642. This Order affects operators of hotels, restourants and,other establishments where meals are served. It is of immediate importance to butchers and sloughterers. If your copy has been lost, you can obtain another from the necrest office of The Wartime Prices and Trade Board.

The 1942 Income Tax Forms are now ready. Your employer can probably supply you with them a sea otherwise, they are available at your local Post Office, or the office of your District Inspector of Income Tax

Income Tax dollars are not ordinary dollars ... they are Victory dollars . . . necessary dollars to help win the war. Income Tax is fair to all. All are taxed in proportion to their ability to pay,

Under the new system introduced this year, Income Tax is now on a pay-as-you-earn basis. The reduction of the 1942 Tax made. this possible.

In most cases the larger part of the reduced tax will have been paid by the 1942 tax deductions or instalment payments. Onethird of any balance must be paid by 30th June and the remainder on or before 31st December, 1943.

Remember ... by filing an Income Tax Return and paying any balance, you establish your right, after the war, to the refund of the Savings Portion of your tax,

Over 2,000,000 Canadians will be filing returns and paying taxes . . . avoid the last minute rush. If you wait, illness or other unforeseen circumstances may prevent you from getting your return in on time. Avoid penalties by sending in your return NOW!

GET YOUR FORMS NOW - MAIL THEM PROMPTLY

For incomes not over \$3000 get two (2) copies of Form T. 1 Special. This is a new simplified form—no difficult figuring—no complicated enlaulations:

Pledge allegiance! That we do
On this day we've set apart
To the red, the white, the blue
One of mind and one of heart.

Here we vow, as oft before, Faithful every hour to be To Old Glory ever more, To a world forever free.

"Two named for the price of one today -- It's our daily double."

You've noticed, of course, that Cadbury's Dairy Milk Chocolate is often hard to get. This is due to an encorrous increase in public demand, nye the fact is that, though rationed, we are making and distributing for civilian consumption far more Cadbury's Dairy Milk Chocolate than ever before. This has been accomplished by the discontinuance of other lines.

We are doing our utmost to meet the ever increasing demand and you may be quite sure that the world-famous quality will remain unchanged so that when you do get Cadbury's Dairy Milk Chocolate it will be a treat worth waiting for.

Borrow. If You Can SAVE

If obtaining a loan at the Bank will save money for your business or personal affairs, then borrow-ing is sound practice, even in war-time.

A retailer, for example, may obtain a substantial discount if his purchases are for cash, justifying a short-term loan at the Bank.

In personal affairs, an emergency expenditure may be reduced by having the cash to meet it, even at the cost of a bank loan. The cost of a personal loan is very reasonable: \$3.65 for each \$100, re-payable in 12 monthly instalments.

Determined, systematic saving by every citizen is a part of the national price of VICTORY.

THERE'S ADVENTURE IN THE WORDS.

# "For Service Anywhere

From East ... West ... North ... South ... the war calls women to adventure — to a stirring part in the world struggle, beside which even the life of our pioneer mothers must seem drab.

They worked, those women . . . they faced danger . . . they even shouldered muskets — but theirs was a world bound to their own hearthsides.

The world has changed for women. A new picture is painted in dashing colours . . . in navy blue ... air force blue ... khaki. It is a world of change, of new places ... new experiences ... new friendships ... new responsibilities. That is the world of our women's forces today ... ready, for service anywhere!

Canada must use all her human resources. Today the call rings out for women. They are needed in the women's forces . . . NOW! . . . So our men can fight.

### Churchill Now Has a Victory Face

NAZIS/AIDED PEARL HARBOR SNEAK

REPING FULLY INFORMED, getting all the news, is something that we in America have long been used to. But war has magnified its importance, made it far more vital than at any time in the past.

For this is a people's war . . . and full information is the people's indispensable weapon for Victory.

We have always turned to our newspapers as the most complete source of news. The war has made us more dependent on newspapers than ever before ...

... for full reports of the day's events ... for detailed news from the battlefronts and the homefronts, from Washington and other world centers, and from our

... for full information on wartime regulations ... on rationing and taxes, dimouts and blackouts, draft orders and air raid rules . . . on how to save, how to

make things last longer, what to does help was the war and haster the coming of peace.

. . . for editorial interpretations and expert and part of the important happenings, to give us a better understanding of what's going on today and what lies ahead.

... for the vital news that comes through the advertisements of manufacturing plants and retail stores news of what industry is doing and planning, news of merchandise and services the stores are offering.

We depend on newspapers to be fully informed. Small wonder, then, that today, when being well posted is so important to all of us, newspapers are being read more eagerly, more thoroughly, and by more people than ever before. That's one reason why newspaper space is so powerful a medium for wartime advertisers.

- The annual wage bill is now twice what it was in 1939. This is partly because of the increase in the amount of employment but also because the average hourly earnings of plant employees (cost of living bonus in cluded) have increased 42.2% since the outbreak of the war.
- · Income taxes today are more than 3,000% above 1939. But the company's 3,188 shareholders get the same dividends as at the start of the war.
- This record is typical of Canadian business enterprises engaged in war production.

ADDED home security has always been one of the foremost objectives of Brantford Roofing's production...extra protection against the ravages of fire, time and weather. But, as this soldier typlies, men who used to help Brantford Roofing build for security are out battling for it new.

battling for it now.

Because Brantford Roofing products have a petroleum base—and oil is strategic material nowaday—the supply of Brantford Roofing for houses is limited. Any quantities available for civilian use are rationed to designer, to ensure an equitable share in each community. To stretch raw materials as far as possible, all frantford raw materials as far as possible, all frantford manufacture and the stretch ratio of the stretch ratio

If you are faced with roofing problems, ask your Brantford Roofing dealer to assist you. He will help you make your present roof last longer and effect urgent repairs with a minimum of new material. He will also help you plan now for a completely renorated roof after victory.

THIS is more than a war job. It's a real share in the fight for Freedom:

A. hight for Freedom.

There are forry differest jobs that women can do in the R.C.A.F.—inoperate work that they can do as well as men. Training fits them for essential places in control overs and equipment deport, in bangars and method reparaments, in garges and offices. And there's recreation for all—shows, duncing, games—travel—and new friends.

Opportunities for advancement are excellent right now.

And the thorough training will fit you for peacetime employment when the big show is over.

# "No cause, no country, can be great unless its women work for it"

Madame Chiang Kai-shek

The women of China have risen to the challenge. Leaving their traditional place in the home, they are working and fighting to defend those homes, side by side with their men.

Canadian women have the same duty. They are not being asked to man the guns, but there are thousands of jobs just as essential which they canand should be doing behind the lines.

The fighting men of Canada expect - and have a right to expect - that Canadian women will be just as ready to give up their comfortable way of life for the sterner duties of war.

On far distant theres, in other climes, wherever the sound of battle is heard, there serves the Canadian-built war vehicle. Today, Canada celebrates the completion of the first half-million units. With more than fifty different types, all military needs are met by these mechanized "weapons of war." The conversion of peace-time industry, enabling it to produce this vast number of vehicles, is one of the miracles of Canada's War Effort. With this smaxing record behind them, the Motor Car Makers of Canada are swinging into their second half-million, in the firm belief that the assurance of Victory is dependent upon the ever-growing strength and equipment of the United Nations.

The men and women of General Motors are proud of the part they have played in the production of this first half-million vehicles, and in the guns, shells and airplane parts that are being produced in their plants. Until the battle ceases, "Victory is Our Business."

# Canada has Produced 500,000 Military Vehicles

RUGGED, powerful battle vehicles have rolled away from Canadian assembly lines to form a gigantic "armada on wheels" ... to plough their way through hub-deep desert sands ... to haul men and firepower through jungle swamplands ... to speed United Nations assaults through frigid nights.

In the great North African victory, more than a third of the military vehicles were from Canada. And on fronts all around the world, military experts have been loud in their praise of these sturdy products of Canada's automotive workers.

We have now reached a "landmark" ... the 500,000th Canadianbuilt vehicle. Ford of Canada is proud of its part in producing a substantial proportion of this huge total. And today Ford workers dig in with renewed determination to back up our fighting men with more and more and still more fighting machines to carry the battle deep into enemy territory.

THESE days it is doubly important to get really good coffee for your precious ration coupons. Maxwell House is tops, as any coffee lover will tell you, because:

1. It's blended from the very finest coffees available—each chosen for its own special quality of flavor, body or fragrance.

2. This fine blend is reasted uniformly by a special process that captures all its fragrant, amouth, coffee goodness. For wartime reasons Maxwell House is now

For wartime reasons Maxwell House is now packed in bage—in an All Purpose Grind and at a lower cost to you. This new grind is suitable for all weeps of making collec-onfolop-th, percolator or glass coffee-maker. If using a glass coffee-maker your may want to brew the coffee a little longer.

# FOOD VALUE of BORDEN'S ICE CREAM more Important than ever in Wartime

The importance of the food value of Ice Cream is fully recognized by Canada's armed forces with the result that our soldiers, sailors, and airmen in train-ing are eating more Ice Cream than ever before.

Recently, a careful study of the nutritional value of Ice Cream revealed that it is an excellent source of Vitamin A and Vitamin B<sub>1</sub> (riboflavin). Our fighting men must be supplied in proper quantity with both these vitamins in order that their eyes

You may be interested to learn that the canteens and messes of our armed forces will use over 350,000 pieces of Borden's MclOrol Ice Cream

this month alone, besides thousands of Borden's delicious Ice Cream bricks and Ice Cream bars. Naturally we must give these men and women all the Borden's Ice Cream they want.

Besides this, we feel sure you will agree that the men and women in war industries need the nutritional value of Ice Cream.

So it may be that, at times, your Borden dealer will be abort of Ice Cream, when there is not enough of this fine food to go around. But please remember that we are doing our best to see that the available supply of Borden's Ice Cream is equitably distributed.

## "Molly McGee speaking-about the War!"

"Mind if I talk about the War for a minute? It's a subject pretty close to every woman these days.

Most women are doing something about it, and
lots of us could be doing more. But as long as
our boys are fighting and dying, none of us can possibly do enough.

"I get letters from women all over Canada, and many of them read like this: 'Molly McGee, I save waste kitchen fats, flatten tin cans, collect metal waste kitchen iais, natien in cans, conect metal scrap and buy War Savings Certificates . . . and that's fine. But it isn't enough—I don't have that God-given feeling of satisfaction that comes with doing all I can in this War. What more can I do? So we asked the Employment and Selective Service for suggestions on War Womanpower. And here they are, girls—the things women can be doing to beat the Axis!

"Every woman who can, should take a full or parttime job where she'll be most useful. A few of the jobs are listed below. And remember this: even the least of them is terribly important, and needs to be filled right now!"

## PROUD ·· PRETTY ·· PATRIOTIC

#### Proud ...

Naturally. She would not exchange her uniform for any consideration. She loves it dearly and carries her head a little higher since she answered the CALL TO KHAKI.

#### Pretty...

She's more than that. She's a typical specimen of our happy bright-eyed Canadian Girls, brimming over with high spirits and a healthful zest for living.

#### Patriotic ...

Of Course. She can't talk about her country. She's not made that way. That kind of talk makes her uncomfortable BUT she will serve the land of her birth with unfailing devotion. She was brought up in a land that has never known tyranny and she is mighty proud of her Canadian heritage.

## The Chinese thought of it first!

Thousands or years ago, and of defence dumped of gunpowder—a flaming chemical of defence dumped ments upon an invading enemy.

And from this age-old beginning has evolved smokeless powder made from high-proof alcohol. Like the airplane, it has done much to further the progress of mankind-but in evil hands it has meant tyranny and enslavement.

As the tempo of this war for liberty increases and our armed forcis in all parts of the world swing to the offensive, more smokeless powder for our shells,

bombs, depth charges and torpedoes is a vital necessity.

And because we have vast fields of grain and the facilities so convert them into high-proof alcohol, the United Nations shall have an overwhelming superiority of fire-power to pulverize the enemy into uncon-

Thus, China's primitive powder of defence has finally developed into the weapon to drive tyranny forever from this earth. In a way, it is the hand of socient China reaching out in defence of free men everywhere.

Alcohol for Wer is also used in the measufacture of Symbotic Rubber, Drugs and Medicines, Photographic Film, Lacquers and Varnishes, Drusting Inkt, Compasses and other Navigation Instruments, Planics, Statterproof Glass and 'many other products. Every Scapum plant in Camples and the Visidad States is energed 10% in the production of high-pared Alcohol for War-

# There are no BOMB CRATERS in our fields ...

THESE are grim and dangerous days, grimmer and more dangerous than most of us realize. While a ruthless enemy is bending his best efforts to destroy our vital food supplies, we can still peacefully carry

on our deties on the farm. We must make the most of our time, putting every available acre of our fertile land to work, to produce FOOD for our people, our armies and our allies.

### FOOD IS VITAL FOR VICTORY

You may be a school teacher, or a nt, you may be a business or professional man, office or factory worker, store keeper or clerk-no matter who you may be, if you have a few days, weeks or months of leisure this summer, you can make an im-portant contribution to Canada's war effort by taking temporary work on a farm. It cannot be sufficiently emphasised how urgently the Nation needs additional farm help, YOUR

help, to meet the ever increasing demands for FOOD. Every year Canada sends millions of pounds of food to feed our kinsmen and allies abroad, and with many thousands of our people in the fighting services and the war factories we ask you to help fill the gap. Knowing how our very, existence depends on victory, and how much depends on FOOD to win that victory, we appeal to you to lend your willing aid.

This is what YOU should do . . ACT NOW!
